

SARVAYOGAM

Be Futuristic®

**25 Years
warranty
for
Panels**

**5 Years
warranty
for
Inverters**

SARVAYOGAM ADVANTAGE

- * Nature friendly
- * Non - Polluting
- * Zero use of fossil fuels
- * Maintenance Free
- * Safe & easy to use
- * Long life
- * Constant availability of power
- * Subsidized by government
- * Tax Benefits

SARVAYOGAM

Be Futuristic[®]

The Solar Way

Solar energy is the greenest & most abundant source of energy. Harnessing the solar energy has been one of the pivotal issues technocrats have been working on since the advent of electricity. With the evolution of technologies, it has now become possible to provide economic solar power generation systems to residences, industries and other public entities.

SARVAYOGAM Solar

Sarvayogam is a leading trading and service organization, based in Surat & having operations in Ahmedabad, Surat, Vadodara & Indore. We are primarily into Solar EPC, Solar Consultancy, Electrical Consultancy and contracting. In terms of trading, we deal in plethora of electrical products like Maintenance free earthing, lightning protection systems, copper & GI strips, & allied safety products.

The journey began in 2012, when we started trading in earthing & lightning protection system. Since then we have come a long way from being a proprietary firm to being a partnership firm. In this beautiful journey, we have created a very strong network of associates & group companies that believes in growing together and has a unique synergy running within the system.

Having enormous managing experience backed with adequate technical strength, we entered into Solar EPC work. We install solar ground & solar rooftop systems for domestic as well as industrial requirements.

Our linkages in the industry has been our forte and we leverage on them to provide our wide array of customers with services like captive solar power farms, Off Grid as well as Grid linked Solar Energy Systems. Our systems are suitable for domestic as well as commercial applications. We have an adroit team with individuals from vivid background & technical domain of expertise. Our service team is capable of delivering projects across India.

Vision

To evolve as a fair approached organization with lesser bureaucracy, faster decision making, free of gender caste or creed biases, providing transparent growth to employees and stake holders

Mission

To become a global player in power generation, electrical safety and allied services.

To grow by empowering people and providing them an opportunity to be intrapreneurs and take the organization towards its financial and social goals

Why SARVAYOGAM Solar?

Over the years, we have developed the finest team for Engineering, Procurement & Construction. We have created a team that has capability to deliver solar systems across any part of India. Be it roof-top installations for home or tailor-made solar solutions for industry, we simply create the best for our clients. Our systems are optimized and made efficient enough to deliver throughout the project life.

Our Strengths

- 1 Scientific feasibility study & cost-ROI analysis
- 2 Assistance in technology selection
- 3 Experienced & Robust team for faster paperwork & Liaison
- 4 Direct Procurement from Global Markets
- 5 Certified Quality raw material
- 6 In-house design of project
- 7 Customer centered Projects
- 8 Timely executions & commissioning
- 9 Performance testing & smart monitoring
- 10 Qualified and experienced team
- 11 Cost optimized turnkey solutions

Products

SARVAYOGAM Solar

Grid linked Solar Energy Systems

Grid Linked (also known as grid-tie, utility-interactive, on grid or grid connected) systems are solar systems that are intended to operate in parallel / synchronization with an electric utility. Consumers find a direct reduction or possibly Zero electricity costs. If the PV panels are producing more electricity than you are using, the system will feed the surplus of the energy back to the utility. The electric utility provides credits and even monetary benefits for balance of energy units sent back into the grid.

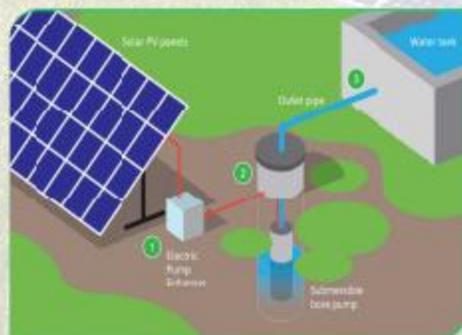

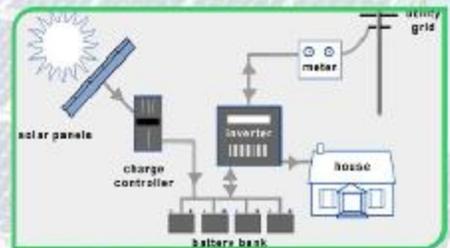

Off Grid Solar Systems

Off Grid solutions are for homes that do not have access to grid electricity. These systems offer complete autonomy and independence from the national grid. Energy is stored in batteries for use at night and other times when the solar panels are not generating as much electricity as you require. Off Grid Solar systems are designed to suit your specific electrical loads and use patterns.

Grid linked Solar Energy Systems with battery back-up/ Hybrid Solar Systems

Hybrid solar systems combine the best from grid-tied and off-grid solar systems. These systems can either be described as off-grid solar with utility backup power, or grid-tied solar with extra battery storage.

Solar Water Pumping System

Solar Water Pumping Systems is a stand-alone system operating on power generated by Solar Photovoltaic Panels. The power generated by Solar Panels is used for operating Solar Submersible pump for lifting water from open well, water reservoir or tube well for irrigation and drinking water purpose. The system requires a shadow-free area for installation of the Solar Panels.

SARVAYOGAM

QUALITY POLICY

Sarvayogam has taken a stringent stand for delivering quality products, providing timely services & ensuring hassle-free documentation. We have proven capabilities to deliver the goods & services in shortest possible time, leading to more business cycles in stipulated period.

Each of our processes undergoes stringent evaluation based on a quality checklist. We are committed to attaining Total Customer Satisfaction. With flat decision making structure, innovative work culture, employee empowerment & constant up gradation, SARVAYOGAM Solar is poised to become a leading player in solar segment.

Some of our Customers

IIDGR (De-Beers Group) Surat (90+ kW)

L&T-Ankleshwar*(25 kW)

Ranjita Textile-Jetpur*(51 kW)

200+ kW in residential rooftop solar project

* In Association with Meera Sun Energies-Vadodara

Applications

Homes

Residential buildings

Farm houses

Commercial buildings

Educational institutions

Hospitals

Hotels & Banquets

Religious institutions

Industries

Solar Farms

Public Institutions & Convention Halls

Authorized Dealer / Channel Partner :

Regd Office: B-2-54, Shaan III, Gamdi, Vatva, Ahmedabad- Gujarat. Pin Code: 382 435.

Surat Sales Office:

203, Sahyog Complex, Opp. Dena Bank,
Udhna Sachin Road, Udhna-Surat- 394 210.
