FORE POINT SOLUTION

POWER TO CONSERVE

ABOUT US

In a world where energy demands are soaring, we empower your transition to renewable energy. By decoding your power usage and requirements, we deliver tailored techno- commercial engineering and maintenance solutions. This results in sustainable resource utilization and a boost to your own renewable energy harnessing. We focus on maximizing your energy usage on renewables, crafting solutions that align with your needs, and driving sustainable growth.

SOLAR POWER SYSTEM

Types of Solar Power System

☑ Ongrid System

☑ Offgrid System

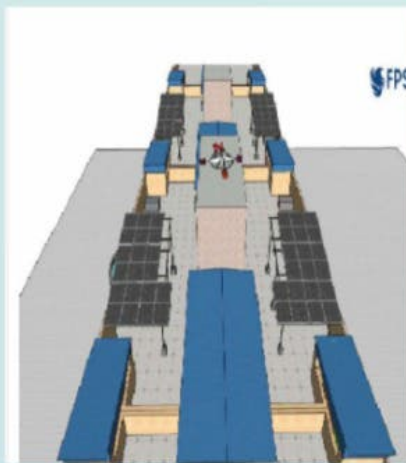

☑ Hybrid System

☑ Open Access

OUR SERVICES

A. Detailed Engineering Design

Designing takes into consideration all the site conditions like shadow issues, obstacles etc ensuring smooth installation and optimum generation.

Site Design

Actual Site

B. Installation and Commissioning

Skilled and experienced team capable of executing challenging installations as per the design standards considering all the safety aspects.

C. Operation and Maintenance

Fore Point Solution provides complete operation and maintenance services and latest installation techniques.

Technical Scope of O&M

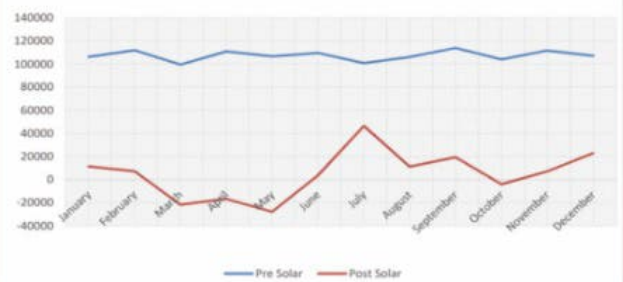

1. Panel Cleaning – 18-24 Cleaning Cycle
2. Inverter Maintenance
3. Preventive Maintenance
4. Earthing Checks
5. Structure Maintenance

Analytical Scope

1. Continuous Study of your daily generation data
2. DISCOM Bill Monitoring
3. Saving Comparison Before and After Solar

Pre and Post Solar Cash flow for 1 Year

D. Open Access

For industrial customers with limited rooftop space for solar PV installation, Open access is an ideal solution. We assist in procuring green energy from solar and solar-wind hybrid parks.

These parks are strategically located in low-rainfall, low-pollution areas for higher efficiency, with dedicated maintenance teams ensuring reliability.

As per the new Green Energy Open Access guidelines, consumers with a sanctioned load of 100 kW or above are eligible to procure green energy through this arrangement.

E. Solar Financing Options

For Residential and Commercial Consumers

- ▶ Instant EMI Options
- ▶ Collateral Free Financing
- ▶ Doorstep Service
- ▶ Attractive Rate of Interest

For Industrial and Commercial for Projects above 100KW

- ▶ Short Term Financing
 - ▶ 3, 5, 7 Years Financing Options
 - ▶ EMI lower than Savings
 - ▶ Door Step Services
- ▶ Long term financing (B.O.T)
 - ▶ Pay as you Generate
 - ▶ O&M of Complete system under Investor Scope
 - ▶ Tenure- 10, 15, 20 Years

OUR PROJECTS

20KW Housing Society, Virar

8KW Residential Palghar

63KW Housing Society, Pune

205KW Industrial, Sarigam

Dapoli 48 KW commercial project

300 KW Industrial Boisar

AND MANY MORE...
